Description

Sail La Vie is a 2017 Hanse 315 that is now listed exclusively for sale with YOTI Pittwater.

The Hanse 315 is a pocket cruiser / racer and is still a current model yacht offered by one of the most successful production yacht companies globally. The Hanse group is simply going from strength to strength and locally in Australia the brand benefits from the largest brand specific service department in the country offered by national dealers Team Windcraft.

Sail La Vie is only the third Hanse 315 to be ever offered for sale on the Australian brokerage market and this is the best specified and fitted out example offered to date. Chosen with almost every option ticked, Sail La Vie includes a massive list of factory packages and local upgrades. The navigation / comfort / anchoring / and performance packages were all chosen. The sail wardrobe includes the Hanse signature self-tacking headsail and main (both upgraded by Elvstrom) plus two genoas and an asymmetric spinnaker (all fitted locally by North sails)

which give Sail la vie the maximum flexibility for either 'one up' sailing or seriously fun and competitive racing.

This is a two cabin layout which will impress. The forward cabin was upgraded to be the flexible folding berth layout - giving space when needed and a generous berth for cruising. The galley is complete. The nav station and switchboard sits to port but no chart plotter here - that's on deck where you can see it by the helm. There's also a proper under deck autopilot. A second (and even bigger) cabin sits aft. The head and shower to port puts other boats in her class to shame. There is also a large cockpit storage locker.

For those considering a new or near new midsize cruiser / racer with a very extensive (and expensive) list of additions at a seriously reduced price from new, Sail la vie should be considered.

Contact Peter Mactier at YOTI for further details and to arrange inspection on a marina berth on Pittwater.

Features

Designer	Judel / Vrolijk.
Builder	Hanse Yachts, Germany.
Water (Potable) Capacity (l)	230 ltrs Approx.
