Description

Muriel is the very first Hanse 418 to be presented for sale on the Australian brokerage market and is exclusively for sale with YOTI.

Launched in just April 2019 and presenting in as new condition, this is a rare opportunity to purchase a current model yacht at a significant saving on new with no wait time on build or delivery.

The Hanse 418 built on the huge success of the 415 and the 400. This is Australia's most popular sized Hanse. Muriel has been carefully specified by her experienced owners. Being their sixth yacht, the owners knew they wanted a swift, easy, and quality yacht by a respected brand and backed by a strong local dealer. After originally searching for a 45 footer, inspection at the Sydney Boat Show confirmed that the Hanse 418 with the semi-island berth in the owners cabin and the masses of space and storage was better suited to their mostly couple sailing while still having generous space for friends and family. The Hanse 418 is an impressively big 40 footer.

Muriel is the preferred two cabin layout which gives a massive extended galley leading to the utility room or storage shed. The large saloon features upgraded leather upholstery and an additional double pull out berth. The nav station and switch board (or coffee table) sits to port. The impressive owner's cabin is forward. There is a double aft cabin to port and the head (with electric toilet) and shower space importantly includes a solid shower screen. More opening hatches, hull windows and port lights than ever before fill the interior with light and air when wanted and blinds, curtains and screens are there when needed. All hatches have fly screens.

Mainsail and self-tacking jib were upgraded in the Elvstrom Performance FCL (cruising laminate) with vertical battens. The main is furling making for seriously easy sailing. Instruments by B&G include cockpit chart plotter, auto-pilot and AIS transmit and receive. The bimini, dodger with infill plus cockpit cushions and covers were chosen in metallic grey and nicely compliment the upgraded black Carbonautica wheels. Some of the long list of upgrades chosen include: life line opening gates, solar panels with regulator, Excel No 5 anchor, double bow roller with spinnaker halyard, 12v outlet in storage locker for additional refrigeration and a smart custom factory fitted opening hatch above the galley.

This near new Hanse 418 is ready and available now, contact Peter Mactier at YOTI for further details and to arrange inspection on Pittwater.

Features

Designer	Judel/Vrolijk
Builder	Hanse Yachts Germany
Water (Potable) Capacity (l)	approx. 475
