Description

Price: AUD \$350,000

2001 J/160 "Salacia" now exclusively for sale with Yoti in Cleveland, Queensland.

One of the World's Great Offshore Performance Cruisers.

Designed by Rod Johnstone and built by J/Boats, with only around 35 examples ever produced, the J/160 has earned an enviable reputation as one of the world's finest offshore performance cruisers. Combining exhilarating sailing performance with genuine bluewater capability and refined cruising comfort, it remains a yacht that experienced sailors actively seek out.

That reputation continues today. Veteran offshore sailor Michael Spies, a 47-time Sydney Hobart competitor, recently described the J/160 as his "dream boat" after searching internationally to find the right one--a reflection of just how highly regarded this design remains.

Salacia is a beautifully maintained example that has been continually upgraded while preserving everything that makes the J/160 so special. Advanced composite construction, an easily driven hull and low centre of gravity create a yacht that is light on the helm, balanced under sail and remarkably easy to handle for her size. Whether sailing shorthanded, racing offshore or setting off on extended cruising, she delivers the rewarding sailing experience for which J/Boats are renowned.

Below decks, the beautifully crafted teak interior offers a practical three-cabin layout with a spacious owner's suite, two guest cabins, a well-appointed wrap-around galley and comfortable saloon. Reverse-cycle air conditioning, a Sea Recovery watermaker and Fischer Panda generator provide the comforts needed for extended cruising. On deck, the Hall carbon mast, hydraulic backstay, retractable carbon bowsprit and comprehensive sail wardrobe reflect her serious performance pedigree, while a new Raymarine Axiom 2 Pro navigation suite (2026) ensures she is equipped for modern passagemaking.

Highlights

- One of approximately 35 J/160s ever built
- Legendary Rod Johnstone design
- Hall carbon mast with rod rigging
- New Raymarine Axiom 2 Pro navigation suite (2026)
- Hydraulic backstay and retractable carbon bowsprit
- Sea Recovery watermaker and Fischer Panda generator
- Reverse-cycle air conditioning
- 88hp Yanmar diesel with MaxProp feathering propeller
- Beautifully finished three-cabin teak interior
- Well-maintained and comprehensively equipped for offshore cruising

The J/160 has long been regarded as a benchmark in offshore performance cruising. Salacia is a fine example of the design--ready for her next owner to enjoy everything that has made these yachts so highly respected around the world.
