The open-plan saloon flows seamlessly into the galley and cockpit, creating a bright, airy living space filled with natural light. Premium custom upholstery, selected for both durability and comfort, adds warmth and style to the interior.

'Sojourn' has been carefully customised with a range of high-quality upgrades designed to enhance her long-range, blue-water cruising capabilities. The energy system includes a large bank of lithium batteries managed by a user-friendly Victron system, ensuring efficient power distribution and monitoring. This is complemented by a full solar array mounted on a custom-built arch, alongside an 11-kW generator.

A high-output watermaker is fitted, and full air-conditioning is installed throughout the cabins and saloon, ensuring comfort in all climates. Manoeuvring in tight marinas is made easier and safer with integrated security and docking cameras, providing clear visibility and peace of mind.

Her navigation and communication suite includes chart plotters, radar, AIS, autopilot, and depth sounders, all seamlessly integrated for intuitive operation - plus, a Starlink system is already installed.

The hydraulic TenderLift makes dinghy launching and retrieval effortless, while also doubling as an extended swim platform for relaxing or enjoying water activities. The cockpit and flybridge benefit from clear weather panels and premium custom upholstery, making these social spaces usable in all conditions. Synthetic teak decking in the cockpit and on the transoms offers a stylish, low-maintenance finish.

With her comprehensive blue-water specification, high level of customisation, and turnkey readiness, this Lagoon 46 is an exceptional platform for serious cruising or luxurious weekend escapes. Available now with no waiting or additional outfitting required, she's a rare opportunity to own a modern, highly capable cruising catamaran built for independence and long-term enjoyment.
