Description

Built in Australia by Stebercraft, 'Kilowatt' is a Steber 3800 Sports Cruiser in immaculate condition and now For Sale with YOTI Power.

Located alongside on Port Hacking, Kilowatt is an exceptionally well built, beautifully finished and well specified 38' family motor cruiser.

Powered by twin Yanmar 315hp diesels each with only 795 and 815 hrs. Respectively and running through skeg protected shafts with PSS seals she is an incredibly economical boat at a cruising speed of 23 knots. Also optioned with an Onan genset, reverse cycle air conditioning, Raymarine instrumentation including Maretron engine monitoring, solar and a Victron inverter charger, she is the ultimate "off the grid" safe family cruiser.

Her layout is simple and spacious, with an excellent sized V-berth forward with generous heads and hot and cold shower. Her saloon has a good-sized offset U shaped dinette to starboard and in-line galley to port with oven, microwave and front opening fridge and freezer. Her cockpit is a massive lounging space for daybeds or a more formal dining area if needed. The engine room is immaculate and well organised and accessed easily from the saloon or the cockpit. All of the working spaces are generous and very clean.

Please call YOTI for further information on this very safe very and well-built Australian family cruising boat.

Features

Designer	Stebercraft P/L
Builder	Stebercraft P/L
Hull Construction Material	GRP
Hull Type	Monohull
Deck Construction Material	GRP
Country Origin	Australia
Length (feet)	40
Length (m)	12.20
